Human Oversight and Decision-Making Policy

Standalone Branded Policy Document

Practical governance beats vague good intentions.

Primary owner	AI Governance Lead
Version	v1.0 Paid SMB Edition

Use this document as a client-ready policy baseline. Customize named roles, escalation paths, and references to internal standards, classifications, and regulatory obligations before approval.

Policy Overview

Purpose	Defines when human review is required before AI outputs are acted upon, especially for legal, financial, employment, safety, health, and customer-impacting decisions.
Scope	Applies to AI-supported activities where outputs may influence legal, financial, employment, safety, customer, regulatory, or other high-impact decisions.
Primary owner	AI Governance Lead
Audience	Business decision-makers, managers, operations teams, HR, Legal, compliance reviewers, and customer-facing teams

Policy Statements

- AI may support human decision-making but shall not replace required human judgment for high-impact, regulated, or rights-affecting decisions unless explicitly approved by policy and law.
- High-impact outputs must be reviewed by a qualified human who has authority to approve, reject, escalate, or override the AI-assisted recommendation.
- Business owners shall define what qualifies as a high-impact use case, what review steps are mandatory, and what evidence must be retained.
- Where AI outputs are uncertain, incomplete, or ambiguous, the workflow shall route to human escalation rather than proceed silently.
- Teams shall not present AI-generated conclusions as authoritative without appropriate review, context, and, where necessary, transparency to affected parties.

Roles and Responsibilities

- Business owners define which workflows are high-impact and what human review steps are mandatory.
- Qualified reviewers validate AI outputs before decisions, communications, or actions proceed.
- Teams document overrides, escalations, and validation evidence for high-impact use cases.
- AI Governance, Legal, and Compliance provide guidance where regulated, sensitive, or ambiguous outcomes exist.

Required Records and Evidence

- Human review checklist
- Decision approval record
- Override log
- Escalation records
- Output validation samples

Required Companion Templates
